INTERNSHIP

Better Tomorrow – MERN	2025
-------------------------------	-------------

I completed a 1-month internship as a MERN Stack Developer at BetterTomorrow Company, where I gained practical experience in developing and managing full-stack web applications using MongoDB, Express.js, React.js, and Node.js.

PROJECTS

Green Mart – MERN Stack E-commerce Platform	2024
--	-------------

MongoDB | Express.js | React.js | Node.js

Developed a full-stack web application for purchasing natural products such as fruits, vegetables, seeds, flowers, and medicinal herbs. Implemented features like user authentication, product browsing, shopping cart, order management, and secure payment integration. Built a responsive UI with React.js and managed backend APIs and database operations using Node.js, Express, and MongoDB to ensure smooth navigation, fast performance, and a seamless user experience.

Exam Management System**2025****MongoDB | Express.js | React.js | Node.js**

Developed a full-stack Exam Management System to streamline online examinations for students, teachers, and administrators. The system enables secure authentication, role-based dashboards, online exam creation, exam participation, and automated result processing.

Food Ordering System**2026**

Built a full-stack food ordering platform with user authentication, menu browsing, cart functionality, order placement, and real-time order status updates. Developed responsive React UI and secure backend APIs using Node.js and Express, with MongoDB for data management. Implemented admin features for order tracking, status updates, and order history management.
