Sri Eshwar College of Engineering	B.E(Computer and Communication Engineering)	CGPA:7.39	2023 - 2027
Nadar Higher Secondary School	HSC	87.6%	2021 - 2023
Nadar Higher Secondary School	SSLC	PASS	2020 - 2021

INTERN

RAMPeX | **JAVAFULLSTACK (SPRINGBOOT + REACT JS)** 2025

Completed hands-on full-stack development internship using Spring Boot and React.js. Developed full-stack applications using Spring Boot and React.js following MVC architecture principles in building RESTful APIs, user authentication, CRUD operations, and database integration with JPA and Hibernate. Collaborated on frontend and backend integration, responsive UI development, and database management using JPA and Hibernate clean architecture, and full-stack deployment.

BETTER TOMORROW | **MERN STACK** 2024

During my internship at Better Tomorrow, full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, and Node.js). I Designed optimized MongoDB database schemas for scalable application performance Developed and integrated RESTful APIs for CRUD operations and real-time data handling for seamless CRUD operations, and built responsive and reusable React.js UI components using modern CSS frameworks using React.js and modern CSS frameworks. This experience enhanced my skills in full-stack development, API integration, and scalable application.

PROJECTS

BunkTracer | **IOT + MERN STACK + AI** 2026

Developed a secure multi-factor attendance system using BLE, face recognition, and ESP32-based IoT with MQTT for real-time tracking and anti-proxy validation. Built a scalable backend with JWT Authentication and REST API Integration, along with a Responsive Design React dashboard for analytics, automated alerts, and monitoring.

E-Commerce Website | **MERN STACK** 2025

Created and deployed a full-stack E-commerce Web Application using React, Node.js, Express.js, and MongoDB Atlas. Implemented secure user authentication, dynamic product browsing, cart management, and real-time order placement. Ensured responsive UI and scalable backend, delivering a seamless shopping experience with efficient cloud data handling.

Smart Dustbin | **ARDUINO IDE** 2024

Developed a Smart waste management system for efficient waste management using ultrasonic sensors and Arduino. Enabled real- time garbage level detection and automatic worker notifications via Wi-Fi. Ensured continuous operation with an integrated power supply for reliable smart monitoring.

CERTIFICATIONS

Data Science & Machine Learning	IIT GUWAHATI	2024
Data Structures & Algorithm using C and C++ course from	UDEMY	2024
Digital Circuits	NPTEL	2024
Core Java	GETIN TECHNOLOGIES	2023

ACHIEVEMENTS

LEETCODE: Solved **100+** Rating- 1542 | Ranking-535560 | [Profile](#)

SKILL RACK: Solved **200+** Rating- - | Ranking-141499 | [Profile](#)

Research Paper Published on ICRTICC - 2025 - Galgotias College of Engineering and Technology 2025

CERTIFICATIONS

Programming Languages: Java, JavaScript, C, C++

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Spring Boot

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, Postman, VS Code, MongoDB Compass, Canva

Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, DAA
