EDUCATION

B. Tech (CSBS) – Sri Eshwar College of Engineering CGPA: 7.95 (Upto 5 th semester)	2023 – 2027
HSC – Sathya Sai Matric Higher Secondary School 90%	2021 – 2023
SSLC – Sathya Sai Matric Higher Secondary School Pass	2020 – 2021

INTERNSHIPS

MERN Stack | Better Tomorrow

Worked on end-to-end MERN stack development, building responsive UIs and RESTful APIs. Applied OOP concepts and modular coding practices in backend development, gaining hands-on experience in front-end and back-end integration while improving problem-solving and teamwork skills.

Java Full Stack | Rampex Technologies

Gained hands-on experience in developing web applications using Java full stack technologies, implementing OOP principles like encapsulation, inheritance, and polymorphism. Worked on backend logic, API integration, and responsive UI development following structured and maintainable coding practices.

PROJECTS

Student Management System – Full Stack Application | 2025

Developed a full-stack student management system to manage student records, courses, attendance, and academic performance efficiently. Implemented secure role-based authentication for admin and users, enabling streamlined data management and access control. Designed RESTful APIs for CRUD operations and integrated responsive frontend components for better user interaction and system usability.

Tech Stack: React.js, Node.js, Express.js, MongoDB

Coupons & Reward Management System – Full Stack Application | 2025

Developed a coupon and rewards management system using Spring Boot to manage user rewards, coupon generation, redemption, and transaction tracking efficiently. Implemented RESTful APIs for coupon validation, reward processing, and secure user authentication. Integrated a responsive frontend with optimized backend services and database operations to ensure smooth performance and reliable reward management.

Tech Stack: Spring Boot, Java, React.js, MySQL

Job Portal System – Full Stack Application | 2026

Designed and developed a dynamic job portal system connecting recruiters and job seekers through a centralized platform. Implemented features such as job posting, resume submission, application tracking, and job filtering based on skills and experience. Built scalable backend services and responsive frontend interfaces to enhance performance and user engagement.

Tech Stack: MongoDB, Express.js, React.js, Node.js (MERN Stack)

CERTIFICATIONS

Java + Springboot from basics to advanced Udemy	2025
Complete full stack web development Udemy	2025
SQL basics Skillrack	2024
Learn from beginner to advanced python course Udemy	2024
C for beginners GreatLearning	2024

CODING PROFILES

LeetCode - Solved 150+ problems	ViewProfile
Skill Rack - Solved 400+ problems and 1 certification	ViewProfile
Code Chef - Solved 500+ problems Problem Solver - Gold Badge	ViewProfile

SKILLS

Programming Languages – C | C++ | python

Frontend – React.js, HTML, CSS, JavaScript

Backend – Node.js, Express.js

Tools – GitHub | VS Code | Postman | Tableau | Canva

Database – MySQL | MongoDB
